For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.

(54) Title: **SYSTEMS AND DEVICES ACCESSING INACCESSIBLE SERVERS**

(57) Abstract: The present invention provides a system and method for automatically and securely enabling a server to be accessed by systems and devices under conditions where it would otherwise be inaccessible. Servers maintain higher levels of security as listening ports are not utilized in the invention. The methods described allow access between devices, even in the presence of firewalls, proxy servers and NAT devices.
